RIVER & BORD

Cleaning Codes

For proper cleaning, find your fabrics cleaning code (located on the fabric swatches' page or on the swatch card) and follow the instructions below

S - Spot clean, using a mild water-free solvent or dry cleaning product. Pretest a small area before proceeding.

W - Spot clean, using the foam only from a water-based cleaning agent such as a mild deter… gent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest a small area before proceeding.

SW - Spot clean with a mild solvent and upholstery shampoo, or the foam from a mild deter… gent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well - ventilated room.

WS - Spot clean with upholstery shampoo, foam from a mild detergent, or mild dry cleaning solvent. Pretest a small area before proceeding. Do not saturate. Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance.

X - Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust or grime. Water based foam cleaners or solvent-based cleaning agents of any kind may cause excessive shrinking.

TIPS:

- When cleaning a spill, blot immediately to remove spilled material.

- Clean spots or stains from the outside to the middle of the affected area to prevent circling.

- Cleaning codes can be found on the back of your swatch or on each swatch page.

CAUTION:

- Hot water extraction or steam cleaning is not a recommended cleaning method.

- Cushion casings should not be removed and laundered or dry cleaned. Never remove the cushion covers for separate cleaning and washing even though they have zippers.

- Do not use any tumble method of cleaning service as this may destroy the backing of the fabric and shrink otherwise damaging the upholstery fabric.
